

SERVICES PROVIDED

Roadata Services Ltd. is pleased to provide you with information regarding our wide variety of services.

PERMIT ISSUING

Roadata Services Ltd. (RDS) is the largest and one of the least expensive Provincial Permit Agent in Alberta and the only agent to utilize data upload technology to obtain Alberta Provincial RDS can also obtain Provincial permits for movement in BC, Saskatchewan and Manitoba.

RDS is also pleased to announce that it is the first registered Permit Agent to access the Saskatchewan Web Issuing system. This should improve our ability to provide Saskatchewan single trip permits faster, maybe even faster than calling Saskatchewan directly!

RDS specializes in the issuing of permit approvals for Local Municipalities in Alberta. RDS has exclusive service agreements with 32 municipalities and we have the ability to provide some level of approval services for 50 of the 69 Counties and M.D.'s in Alberta. Go to the RDS website to download a useful printout of the requirements in our partner municipalities.

RDS maintains detailed databases of unit weights, dimensions and specifications to provide the fastest, most accurate service possible. This helps our clients minimize their enforcement exposure.

Our Customer Service Centre is staffed from 6:30 am to 8:00 pm daily and service is available 24 hours a day, 364 days a year.

VEHICLE REGISTRY SERVICES

RDS provides a full range of vehicle licensing services. Regular registration, **PRORATE** Registration, Fleet Renewals etc. We can do it all. We specialize in large fleets and provide services to multi-location branch offices to maintain consistent and accurate tracking of units. RDS maintains a detailed database on each unit to make sure we can provide fast accurate service.

Many companies have chosen our services to minimize the need to have experienced staff to coordinate vehicle registration services. They simply let RDS do the work.

Please Note: RDS obtains all Registry related services from authorized Alberta Registry Agents. RDS is not a Registry outlet and simply obtains service on behalf of our clients.

ROAD BAN AND RESTRICTION INFORMATION

RDS is the only source for Road Ban and roadway restriction information. We compile all Road Bans, Construction and Restricted Bridge information for ***ALL municipalities in Alberta***. This information is used in our custom designed Permit Issuing Software and we also make this information available to clients on our web subscription services. This service also allows you to search our databases for a road ban on a specific highway.

Road ban and jurisdiction information in a text format is available through our **Web Subscription Services for FREE**. Normally a \$500.00 per year per user. Just go to our web site and sign up !!

During the months of February through July, RDS provides an Automated Road Ban Information Service that is sponsored by Alberta Infrastructure and Transportation. Simply enter the highway number and the system will advise you of any road ban on that highway. Here is the best part.... This service is **FREE** !

(From Feb to July each year)

WEB BASED MAPPING SERVICES

Our GIS mapping service provides unparalleled quality and accuracy for ALL local jurisdictions in Alberta and Saskatchewan. This mapping service is available to our Web Service subscribers and is helpful for dispatching of units. This service also provides the user with detailed information regarding any weather delays for overweight movement and all related phone numbers that you may need. The maps are interactive with all restrictions highlighted, a simple click and you have details about the restrictions. This makes for fast and easy routing. You also have the ability to check specific highways for road bans and all text reports that are available to the Road Ban subscribers.

Visit our web site for more details on our Map Subscription services including demos and samples of our maps.

DRIVER ABSTRACT PROCESSING

RDS can assist our customers to obtain driver abstracts for Alberta or any other Province in Canada. We have a unique Driver Tracking System that allows you to schedule driver abstract processing each month to eliminate the large “one time” cost. RDS automatically e-mails your designated staff when the drivers licence is to expire or if the consent form will become out of date.

Please Note: RDS obtains all Registry related services from authorized Alberta Registry Agents. RDS is not a Registry outlet and simply obtains service on behalf of our clients. A representative from your company will be required to fax a list directly to the Registry outlet for processing. All abstracts will be returned directly to your office.

COMBINED SERVICES

Many companies use a variety of RDS services. We can review your needs and provide you with one monthly administration fee that would cover all Registry and Abstract system service charges. You simply pay the required government fee and our monthly fee. RDS can become a useful partner with you to improve consistency and knowledge within your organization.

SUMMARY OF COSTS

Many companies have commented on the administrative savings they have realized as a result of our “per unit” cost breakdown. RDS invoices monthly with a detailed report of permit cost by unit. Clients also receive a detailed approval summary of all costs and approvals for EACH permit issued. This allows you to quickly have total permit cost to accurately charge back any permit fees that were related to a particular move.
